

Notice from Waste Connections regarding missed garbage pickup

We are attempting to service all Monday customers today, January 22nd. We did not run any routes last Friday January 19th, due to extremely hazardous road and weather conditions.

We are asking customers that were missed to place out any extra garbage on their next regular service day and the driver will pick the extra garbage up at no additional charge.

Our #1 operating value is “safety” for our drivers, our customers and their property. We appreciate your patience and understanding!
