

# CITY OF MABTON

YAKIMA COUNTY

WASHINGTON

The City of Mabton proposes to use the funds requested from CDBG to acquire the building and land used as the original Mabton High School. The original Mabton High School, located at the intersection of East B Street and High School Road in Mabton, was constructed in 1911 and placed on the National Register of Historic Places in 1985. The acquisition of this historic building would complete phase one in the process of renovating and restoring the building. Upon completion of the renovation, the building will be used as a community center, museum, library, office space, City Hall, and as a microenterprise business incubator. These facilities will benefit the primarily low- and moderate-income citizens of the City of Mabton.
